Grain, Previsions and Stocks. Quick trades. Immediate settlements. Commercial Club Building. Branch-Denison Hotel Tel. 1375.

SHARE LIST TESTED

Industrials Tumbled.

Later in the Day the Tendency Was Toward Recovery-Indianapolis Grain Drops Back a Point.

At New York, yesterday, money on call was easy at 1011/2 per cent., the last loan being at 11/2, closing at 11/2.

Prime mercantile paper, 4@51/2. Sterling exchange was firm with actual business in banker's bills at 4.85%@4.86 for demand and at \$4.83%@4.83% for sixty days; posted rates, \$4.841424.87; commercial bills, \$4.82@4.8214.

Silver certificates, 69%c bid. Bar silver closed at 69%c per ounce; at London, 32%d. The total sales of stocks amounted to 284,-

The depression which marked the speculation in the industrials Monday on New York 'Change and which effected the railway list to a limited extent was in force again yesterday in the industrial group, but did not make a very serious impression on the rest of the market. Even the industrials recovered the greater portion of the losses which were made in the early dealings and displayed a reserve power that was unexpected. The healthiness of the general market could not have received a more thorough test and could not have stood it more unflinchingly. During yesterday the values of one section of the market kept tumbling around in wild disorder, giving a good excuse if any were needed, for a sympathetic movement in the railway shares. But the invitation was not accepted and the steadiness with which the general values were maintained is very flattering to the soundness of the financial situation and the stability of the share list. Sugar was the most mercurial and falling stock of the market and sold in heavy blocks, one lot of 1,500 being the second sale. It fell 5% and the preferred, 4% per cent. Lead fell off 21% and the preferred 6 per cent. Distilling dropped 24 and general Electric 1 per cent. These declines were all rade in the first half hour and thereafter the tendency was toward higher figures. The market did not advance continuously for the rest of the day; there were frequent reactions before speculation became steady, trend was upward and the close Sugar had recovered 4%; Sugar preferred, 2%; Lead preferred, 5; Distilling,

General Electric, 2%, and Chicago Gas The railway list opened firm, but receded a small fraction in the early dealings by reason of the drop in the industrials. The heaviness was as brief as it was slight and during the rest of the day, the general market moved steadily upward on a moderate volume of business, and by easy stages, closing strong at an advance on the day of 402 per cent. Railway and miscellaneous bonds were

irregular in the early dealings, but as the day wore along became firmer and closed very strong. Government bonds were stronger and higher. State bonds were in better inquiry The following table, prepared by James E. Berry, Room 16, Board of Trade, shows the

LOCAL GRAIN AND PRODUCE. Trade Was Rather Quiet with Steady Prices Prevailing.

On the wholesale streets there was more activity yesterday than on Monday, yet it was by no means as active as last week in many lines. On Commission row complaints are heard, and the common expression is that trade is not what it should be for Thanksgiving week. It is evident that turkeys are to sell lower than usual. The supply is large and the demand not heavy. It is difficult to sell any goods except those actually required. Fancy goods of all kinds remain on the shelf. Even canned goods are not selling in the usual quantities. There were no changes calling for comment in the list yesterday. More interest is taken in the local market in cereals. Each day brings its ups and downs in prices. On some grades of corn the advance of Monday was lost yesterday, and wheat was off 4c. There was a fair attendance on 'Change, track bids ranging as follows: Wheat-No. 2 red, 57%c; No. 3 red, 53c; rejected, 40@50c; wagon wheat, 57c. Corn-No. 1 white, 35½c; No. 2 white, 35c; No. 3 white, 34½c; No. 4 white, 30c; No. 2 white mixed, 34½c; No. 3 white mixed, 34c; No. 4 white mixed, 30c; No. 2 yel-No. 4 mixed, 30c; ear corn, 35c. No. 2 mixed, 29c; rejected, 23@25c.

low, 34c; No. 3 yellow, 334c; No. 4 yellow, 39c; No. 2 mixed, 344c; No. 3 mixed, 34c; Cats-No. 2 white, 31c; No. 3 white, 30c; Hay-Choice timothy, \$12; No. 1, \$11.50; No. 2, \$9.50; No. 1 prairie, \$6.75; mixed, \$8; Rye-No. 2, 45c for car lots; 40c for wagon Poultry and Other Produce.

(Prices Paid by Dealers.)

Poultry-Hens, 5c per lb; young chick-ens, 512c per lb; turkeys, toms, 5c per lb; nens, 7c per 1b; fancy large young turkeys, 7c; small and poor, 5c; ducks, 6c per lb; geese, \$4.20 per doz, for choice; rabbits, sc@\$1 per doz ; quatis, \$1.25 per doz. Eggs-Shippers paying 22c. Butter-Choice, 15@16c; mixed, 10@12c.

Honey-New, 18@20c. Feathers-Prime geese, 40c per lb; mixed fuck, 20c per 16 Beeswax-20c for yellow; 15c for dark. Wool-Unwashed medium wool, 16c; un-washed coarse or braid, 13@14c; unwashed fine merino, 10@13c; tub-washed, 18@23c; burry and cotted wool, 3 to 6c less than above prices.

HIDES, TALLOW, ETC. Hides-No. 1 green hides, 24c; No. 1 G. S. hides, 3%c; No. 2 G. S. hides, 2%c; No. 1 raif hides, 5c; No. 2 calf hides, 3%c. Tallow-No. 1 tallow, 4%c; No. 2 tallow, 4c. Greese-White, 4/2c; yellow, 3/2c; brown,

Bones-Dry, \$12@13 per ton. THE JOBBING TRADE.

(The quotations given below are the selling prices of wholesale dealers.) Candles and Nuts.

10c; cream mixed, 10c; old-time mixed, 71/2c. Nuts-Soft-shelled almonds, 18c; English walnuts, 15c; Brazil nuts, 12c; filberts, 11c; peanuts, roasted, 76/8c; mixed nuts, 14c.

Glish bluegrass, 24-lb bu, \$2.40@2.50.

Heavy Foreign Shipments and Big Increase in the Northwest.

Corn Was Firmer Toward the Close-Provisions Declined, Pork Losing 50e and Lard .271-2c.

The fluctuations in wheat were narrow to-day, and May closed with a loss of 14@%c on an increase in European and Australian shipments and in country and private elevator stocks in the Northwest. Corn firmed up toward the end on light receipts estimated for to-morrow. There were 8,000 hogs in the day's receipts larger than had been estimated yesterday, and that broke the prices of provisions badly. Pork lost 50 cents, lard .271/2c, and ribs .30c.

Wheat opened with May at yesterday's closing price, 69%c. The Liverpool market was quoted as closing weak and a decline followed. The decline brought "puts" into play, and buying against those privileges caused a slight reaction. Northwestern reshowing 2,393,000 bu affoat for the week in excess of the estimate further aided in weakening the market. The big Russian shipments were also a factor, and Farnum, Baldwin, Orr and Pardridge were all sellers. Country elevator stocks in the Northwest were reported from Minneapolis to have increased 375,000 bushels, and private elevators there increased 61,000 bushels in addition. But the export clearances were fairly liberal, and prevented any greater break than that which occurred early. Telegrams from St. Louis claimed country mills in Illinois and Missouri find it difficult to get wheat, and this with encouraging advices from the Paris and Berlin markets sent May up to the opening price, but a re-action occurred at the close. May sold off from the opening %c, reacted %c, lost %c, dropped another %c, sold up %c, and reacted %c to close at 68%c. Corn experienced little trading. May opened %c higher on lighter receipts than the estimates. Cables were unsatisfactory, and after going 1/3c higher to 40c, May sold off 3/3c. At the close there was a rally of 3/3c, last sales being made at 40c. The oats market was quiet but strong on free covering by shorts and receipts of 38 cars less than estimated. May opened at | 64c, and No. 2 red winter, 65%c; November, yesterday's close, 30%c, advanced %c, lost %c, and rallied %c to close at %c higher than yesterday, at 31%c. Provisions were weak, owing to the re-

ceipt of 32,000 hogs, against the estimate of

24,000. The opening was at a decline, and

after a slight rally on sales they closed at

Freights were dull, with fair offerings of

vessels at 21/2c for corn to Buffalo. Esti-

mated receipts to-morrow are: Wheat, 80

cars; corn, 27 cars; oats, 160 cars; hogs, 30,-

000. Leading futures ranged as follows:

a loss all around.

Several Northwestern Mills Forced to Close Down. MINNEAPOLIS, Minn., Nov. 28. - The Northwestern Miller says: The failure of a number of big flour carriers to reach

AND WHEAT SLUMPED for storage room that they had to shut down. The week's output in consequence fell off 10,000 barrels, being 70,230 barrels. Seven mills are running this week and they will make somewhat less flour than last week. The outlook is no more promising than one week ago. The mills will keep on running until forced to shut down. They are working for concessions in the rail tariffs to Eastern markets. There is no demand from foreigners. The Miller re-ports the stock of wheat in private elevators of Minneapolis at 957,000 bushels, an increase of 161,000 bushels for the week The market record estimates the stock in country elevators of Minneapolis and the two Dakotas at 5,650,000 bushels. This brings the total stock of the three States, outside of mill storage, up to 25,404,496 bushels, a gain for the week of 1,379,147

TRADE IN GENERAL.

Dry Goods.

NEW YORK, Nov. 28 .- No department of commercial industry is more sensitive to the possibility of a deranged condition of business interests through tariff changes than the dry-goods market, and, with Wall street already in an unsettled condition as to industrials as the direct result of apprehension of business troubles to ensue, and with the cotton market, notwithstanding the recuperative tendencies of yesterday, again in an upset condition from the same cause, a more or less general halt is called as to operations in dry goods in general, especially such as would be most naturally influenced by tariff changes. The market for cotton goods generally is quiet; print cloths about hold their own, with 3c the price for spots and future delivery sixtyfour squares; printed goods are slow but steady; ginghams and woven goods of the more cheerful styles steady, but selling only moderately well. Foreign dry goods show irregularity, and are generally barely

Fannie Field, in Prairie Farmer. Go ahead and build one house that will commodate one hundred fowls. Put a partition through the middle and keep your fowls in two flocks of fifty each. Divide your acre into four yards and use the yards alternately. In the fall plow up two of the yards and sow with rye. As soon as it is up a few inches put your fowls in those yards. The rye will furnish green food until snow comes in winter wherever the fowls can get at the ground, and the first thing in the spring. Should the rye be likely to grow too high in the fall, just turn your cow in for a little while occasionally, and let her feed it down. Keep your hens on these yards until plowing time next spring, then turn them into the other yards, where the grass will be nice and fresh Plow under what is left of the rye and plant the yards to corn and sun flowers. steady. There is a poor jobbing trade for We have kept hens this way-fifty in a spring. was not a case of sickness among the old fowls during the entire winter. And we made over \$100 in clear cash from the sale of eggs from those one hundred hens, so we do not hesitate to declare that more than twenty-five fowls can be kept profitably in one flock. No, we didn't sell any of the eggs at fancy prices; they were sold at the average price of 20 cents a dozen. Ask youself if you have an acre within the limits of your farm that pays \$100, or even

> How to Make a Plum Pudding. Harper's Bazar. The English make their plum pudding

some time before it is to be used, and then it must be put on early in the morning and boiled for many hours. The receipt we PITTSBURG, Pa., Nov. 28.-National tran-sit certificates closed at 75c; highest, 75c; an American improvement, we think, and has the advantage of being so digestible that dyspeptics may partake of it, in most cases, with impunity. Two hours' steady boiling is enough to cook it to perfection, although it will not be hurt by being kept longer over the fire. The size given is for a company of twenty people, and if any is left, it is always better the second day, sliced and stewed in sauce. Seed enough raisins to fill a quart measure heaping full,

pieces, and a pint of peeled apples chopped fine; add a pound of butter, creamed, or the same quantity of fresh beef suet nicely shredded, and a heaping quart of stale light bread crumbs. If it is more convenient to measure than to weigh, one pint of butter or suet is the right quantity. Beat up light and separately the whites and yolks of eight eggs; mix them in a large bowl or of eight eggs; mix them in a large bowl or tray, with one teaspoonful of salt, without which ingredient the best-made plum pudding will be insipid. Add a half-pint cup of sugar and one nutmeg grated up very fine. Have ready a light quart of sifted flour, with some of it flour your fruit thoroughly. Proceed to mix as follows: Having your well-beaten eggs ready in their proper receptacle, add to them a pint of milk, then stir in the floured fruit, creamed butter and bread crumbs, lastly putting in just enough sifted flour lastly putting in just enough sifted flour to make the mass stick together in a lump. This will probably consume about the quart provided. Next dip your pudding cloth of stoutest muslin or jeans in boiling hot water and dredge over the inside a thick coating of flour. Put your pudding into it, tie up tightly, but at the same time leave room for it to swell. Have plenty of boiling water in a pot, which must be filled up again with the same if it boils away too much. By inverting a plate in the bottom of your pot you will be sure that the pudding your pot you will be sure that the pudding cannot sticy to the botom and burn, and if you have a strong cloth tied with trustworthy twine, water cannot get in—the two
worst mishaps that can befall the inexperienced cook. Resume of ingredients: One
quart of raisins, one pint of sliced citron,
one pint of chopped apples, one pint of
dried currants, one pint of milk, a teaspoonful of salt, one quart of bread crutabs, one quart of flour, eight eggs, one pint of butter, a cupful of sugar.

Storage Battery Cars.

Pittsburg Dispatch. The reduction in the cost of operating street cars by electricity in place of horses is a source of great satisfaction to the stockholders of city lines, and in some places the dividends have increased in sucn proportion that it is proposed to reduce the fares and so allow the public to reap a share of the benefits of the substitution. The trolley, which is virtually the only method of electric traction used in this country, is, so far, found to be the most profitable, but the economy of the storage battery for traction purposes has become es-tablished in England, where that system is rapidly growing in favor. It is stated that electric parcel vans for the accommodation of the enormous parcel post traffic are about to be placed on the London streets. The cost of horse traction in this service is put at 10 cents per mile, and it is estimated that by the use of storage battery vans it will be reduced to 5 cents. It is

Made Her Happy.

proposed to construct the batteries so that

they can be charged for four hours' work.

Philadelphia Times. Young men who are "waiting upon" young ladies, if their attentions are not serious, should be a "leetle", just a "leetle" bit careful. A jury in New York has just decided that implied engagements to marry go, even if there is no regular declaration, and the Supreme Court says it is law. According to this it is not necessary that the young man should "pep," not even that he should have "asked Popper." In the case referred to the swain had attended her to and from church and prayer meeting for more than two years, and occasionally took her to public entertainments. The furthest he ever went was to say: "If I live I will make you happy," and he did, for the jury awarded her a verdict for \$3,000.

Do not imagine you are wasting fuel by opening the windows when the room is too warm. Fresh air is essential to a healthful atmosphere, but dampness is an
